DESIGN BACKGROUND

Branding, social media graphics, promotional and marketing design — shaping an eye for visual hierarchy, typography and composition.

PROFESSIONAL SUMMARY

Frontend-focused web developer with a BSc in Computer Science and an ALX Software Engineering certification. Experienced building responsive interfaces, reusable React components and dashboards, currently developing real-world applications including a real-estate CRM and a JAMB CBT platform. Brings a background in graphic design that shapes an eye for visual hierarchy, typography and composition in interface work. Open to frontend developer, React developer and web developer roles, including remote and contract opportunities.

EXPERIENCE

Founder — RawTech Nigeria

Tech training brand focused on practical digital and development skills.

- Built and maintain a course catalog covering frontend development and digital/AI skills
- Design curriculum positioning toward freelancing, remote work and real applied projects

Freelance Web Developer Abuja, Nigeria

Delivered production-ready websites for local business clients.

- Built responsive one-page websites for Duo Restaurant, Obudu Place, and D' Lapaz Restaurant & Lounge
- Implemented WhatsApp integration, embedded maps, and scroll-reveal animations
- Delivered fully mobile-responsive builds tailored to each client's brand

FEATURED PROJECTS

RawEstate CRM

Centralized interface for managing properties, leads, clients and agents.

- Built reusable React components for layout, sidebar and topbar
- Developed a responsive dashboard with statistic cards and data visualizations
- Implemented dynamic navigation with active navigation states

React JavaScript Tailwind CSS Recharts Vite

RawTech CBT Application

Computer-based testing application for JAMB examination practice.

- Built reusable question and examination interface components
- Implemented question display, answer selection and navigation
- Implemented result and scoring functionality with responsive layouts

React JavaScript HTML CSS

Recipe Finder Application

Web application for searching and displaying recipe information.

- Built a responsive recipe search interface with dynamic content rendering
- Integrated external data into the application for live search results
